COUNTY EXECUTIVE

(314) 615-7016  
TTY (314) 615-8411

February 18, 2011

Dear St. Louis County Business Leader:

In the event that the St. Louis metropolitan area is the target of a bio-terrorism attack, the St. Louis County Department of Health is prepared to act quickly and decisively to distribute needed medications to every person in the county. It is a difficult task, but one I am confident we can achieve with the help of many people.

The St. Louis County Department of Health has partnered with PandemicPrep.org, a grassroots organization to identify and enroll businesses that want to take the lead in protecting their most important assets, their employees. You can play a role in this important lifesaving effort by joining the Bio-defense Rapid Response Network by agreeing to be a dispenser in your workplace for you employees and their dependants. In doing so, you can help speed the delivery of crucial medications.

Within hours, medications will be delivered to your place of business at no cost to you. Your responsibility will be to distribute them to your employees and their families. The only cost will be the cost of your employee's managing the distribution. I encourage you to consider joining other leading businesses in St. Louis County as we provide "Service with a Purpose" by expanding our Bio-defense Rapid Response Network.

For additional information, please call John Anthony at (314) 615-6847.

Sincerely,

A handwritten signature in blue ink that reads "Charlie A. Dooley".

Charlie A. Dooley  
County Executive
